Provider Network Management Contact Guide

For Healthcare Professionals and Providers

Provider Network Management: We're here for you!

Presbyterian strongly values its relationship with you. As an organization, we understand that the strength and success of our partnership can have a positive impact on your patients and our members.

My team at Presbyterian is dedicated to building and strengthening relationships with our network and ultimately providing an exceptional experience for you and our members. Formerly the Provider Services department, we renamed ourselves the Provider Network Management (PNM) department to emphasize our role in partnering with you.

The PNM department is committed to delivering an exceptional provider experience through relationship management and engagement, timely and informative communications, modern resources and services and exceptional customer service. We develop and share programs, tools and communications that provide you with critical information, managed-care related training and education, facilitation and support. As part of the Health Plan, we are constantly evaluating new services and tools that may increase efficiency; add value and lower costs for you and all other stakeholders.

My team members provide their expertise and service to the following areas: practitioner and provider relationship management and training/education, credentials verification, practitioner and provider e-business resources, network communications, regulatory compliance and business analysis.

Along with renaming our department, we completed an internal service-model restructure this past year. Our purpose was to focus on providing you with superior customer service. As part of the process, we re-imagined our titles and purposes. Each practitioner or provider within our network has a designated PNM Relationship Executive who is available as your advocate within the Health Plan. The PNM Relationship Executive title takes the place of the Provider Services Coordinator.

Our Relationship Executives are reaching out to their assigned practitioners and providers through in-person visits, phone calls and emails. They are your first and dedicated resource for questions and support relating to Presbyterian products, services and initiatives.

Your assigned PNM Relationship Executive serves as your primary contact with Presbyterian, but they are supported by the entire PNM relationship team. The service team is led by Tamara Stevenson, Manager, Relationship Management and Engagement. She is supported by Rebecca Eisenberg and Jessica Moya, our PNM supervisors. Rebecca and Jessica each lead a team of PNM Relationship Executives, PNM Relations Service Associates and Quality Analysts. We are all here to support and partner with you.

Sincerely,

Director,
Provider Network Management

How to use this contact list

This contact list was designed to help you get in touch with Provider Network Management. Because of the large number of healthcare professionals and providers that we serve on behalf of Presbyterian, we used several methods to assign our staff to the network.

Behavioral Health
The Behavioral Health section starting on **page 7** lists the Provider Network Management contact for providers within Bernalillo, Sandoval, Torrance and Valencia counties. Behavioral Health providers outside of the four county area can find their contact in the County and City section starting on **page 24.**

Hospitals
Hospitals can find their Provider Network Management contact in the Hospitals section, starting on **page 9.**

Multi-Specialty Groups
Multi-Specialty Groups can find their Provider Network Management contact in the Multi-Specialty Groups section, starting on **page 12.**

Medical Specialty
Healthcare professionals and providers within Bernalillo, Sandoval, Torrance and Valencia counties can find their Provider Network Management contact by looking in the Medical Specialty section, starting on **page 17.**

Healthcare professionals and providers from all counties that specialize in the following medical specialties can also find their contact in the Medical Specialty section, starting on **page 17:**

- Albuquerque Ambulance
- Anesthesiology
- Pain Management
