Your story is our story. The high quality of care provided by Socorro General Hospital is made possible through a partnership between Socorro County, a local Board of Trustees and Presbyterian Healthcare Services, the state's only private, not-for-profit healthcare system, which has owned and managed hospital operations since 1976. Through our affiliation with Presbyterian Healthcare Services, we are able to provide additional, highly specialized care, such as open-heart surgery or pediatric sub-specialty care, at facilities in Albuquerque, if needed.

We take great pride in a long tradition of delivering excellent patient care through a wide range of general acute care and specialty services.

Primary Care/Specialty Clinic

Socorro General Hospital provides healthcare clinics in Socorro, bringing convenient access to healthcare to the residents of Catron and Socorro Counties.

Primary Care Services

- Family Practice
- Internal Medicine
- Pediatrics

Specialty Care Services

- Audiology
- General Surgery
- Podiatry
- Rehabilitation
- Women's Health Center

Physical Therapy/Outpatient Rehabilitation Center

Our rehabilitation services are focused on treating physical problems of movement, pain and activities of daily living in order to help patients move toward recovery. We provide Physical Therapy, Speech Therapy and Occupational Therapy. The goal of treatment is to relieve pain and restore function. Using state-of-the-art equipment and techniques, our licensed and qualified staff can provide treatments including: Cold Laser, Electrical Stimulation, Iontophoresis, Ultrasound, Craniosacral Therapy, Myofascial Release and Trigger Point Therapy.

Home Healthcare Services and Hospice

Through our home healthcare program, patients receive a personalized evaluation, treatment plan and a team of caregivers. In addition to professional medical care, the team helps patients and families learn more about how to care for the patient's health needs. Home healthcare continues until the patient and family feel secure in their ability to care for the patient on their own.

A Private Duty Program is also available, providing non-medical services to help patients maintain their independence.

Socorro General Hospital also provides Hospice services which involve a special kind of care for patients facing the prospect of death. Hospice care provides physical, emotional and spiritual comfort to patients and their families.

Community Outreach Programs

First Born Program

The First Born Program offers first-time families help to promote the growth and development of happy, healthy babies in positive, nurturing families. The First Born Program is free and offered to all women pregnant for the first time and first-time families in Socorro County. Home visits by a nurse and educational materials help first-time parents learn about child development and parenting.

Community Outreach Programs

Casa Alegre

Casa Alegre is an early intervention program for children up to age three who are at risk for developmental delays. The program offers specialized screening and therapies and services from a developmental specialist.

Heritage Program

The Heritage Program is for senior adults age 55 and older. It is an outpatient behavioral health program that offers individuals the opportunity to improve their quality of life by learning to cope with emotional problems, maximizing their ability to function independently. Our primary services are group-based, focusing on grief/loss resolution, stress management and family therapy.

Diabetes Education Program

Diabetes Education Programs are offered to the community in group and individual settings. Programs focus on healthy living and effective management of diabetes. Group sessions meet monthly and cover topics such as: proper use of diabetes medication, the benefits of exercise, healthy food preparation and general diabetes management.

Socorro General Hospital is made possible by a partnership between Socorro County, a local Board of Trustees and Presbyterian Healthcare Services, which has owned and managed hospital operations since 1976. Presbyterian Healthcare Services is a statewide not-for-profit system of hospitals, a health plan and a growing multi-specialty medical group. For more than 103 years, Presbyterian has been committed to a single purpose: improving the health of patients, members and the communities we serve.
