Kenneth Smith MD

Dr. Smith is a medical oncologist and hematologist at The Cancer Center at Presbyterian.

PRESBYTERIAN

Kenneth Smith, MD joined Presbyterian in 2012 and is board-certified in medical oncology and hematology. He has over 30 years of experience in oncology. Dr. Smith believes that patients with cancer need to feel that they are in a place where they can count on getting the best therapy available from people who care about them.

For more information about The Cancer Center at Presbyterian, or to schedule an appointment, call (505) 559-6100.

Education and Training

Dr. Smith received his medical degree from Cornell University Medical School and completed his oncology training at the University of Washington.

The Cancer Center at Presbyterian

The dedicated physicians, nurses and other highly trained support staff at The Cancer Center at Presbyterian work together to provide exceptionally skilled and caring cancer treatment for each of our patients. We are proud that our patients tell us that we provide them with the "best of the best."

The Cancer Center at Presbyterian coordinates cancer care among all needed medical services, and patients have the valuable services of nurse navigators to help guide them through treatment, social and emotional needs and financial arrangements. With Presbyterian Healthcare Services' network of hospitals, clinics and medical specialties, we are uniquely prepared to treat the whole patient.

During your treatment, various healthcare professionals will be working with you to provide you with the best care possible.
